ing trend was still upward and ac-tive deliveries showed net gains of 13a15 points early in the after-

ferred contracts.

Trade demand was doubtless sfimulated largely by a further advance of about %c in firm offers,
Santos 4s being here at 10.85a11.50c

against 10.60a11.40c yesterday. It
remains impossible to buy any
round lots and in the meantime our
domestic demand is improving and
the quantity of Brazilian coffee en route is only 194,000 bags, against about 613,000 a year ago. The quantity of Santos coffee affoat for new York is only about \$27,000 bags—scarcely a week's supply—whereas in ordinary seasons the quantity is close to 750,000 bags. In addition, it is pointed out that Europe's only about two months supply. As an offset, it is pointed out that the President of the pointed out that the President out the pointed out the president of out that the Brazilian government owns hugo stocks, those in Rio being unprecedently heavy, and

NEW YORK, Sept. 2.-After two lots of September were secured on the call at last night's final and price, a much firmer tone was speedily developed, more distant deliveries opening at advances of 98% 7a10 points. There were occasional setbacks subsequently, but the rul-

Public cables were encouraging. In fact, some had looked for an even sharper advance in our mar-ket. Santos was 100a150 reis higher. Rio unchanged to 150 reis higher, exchange on London 3-32d higher, and the dollar rate 150 reis lower. Trade houses, including a prominent cotton and coffee firm. were the chief buyers of December, while there were signs of outside, including European, demand for de-

with their previous close around 101.

Most of the foreign government bond sales were in the French, Brazilian and Mexican issues. Neither the French 7½ nor 8s, however, showed any significant change throughout the greater part of the day, and the Brazilian 8s made only a fractional gain. Mexican 5s fell a fractional gain. Mexican 5s fell in early trading as much as 1% points to 47% then recovered to 48% before dropping again in later sales. The great volume of business in our own government war bonds represented the Victory 4%s, but none of the issues showed any important variations in price.

Cuba Cane Sugar's convertible debenture 7s were not actively dealt in, but an advance of 1% points was recorded on a small sale and most of the trading was done at a 10214 102% price at least a point higher than yesterday's closing. Most of the Interborough 5s brought on today's
market moved at a price about 1/2
a point above the previous close.
